

### #18 - Becky Fuller

Daughter of Gene and Mary Fuller, she was escorted on "Senior Day" by her sister, Lori, because her parents were in Hawaii. This was Becky's only year playing for Brighton, and she was a forward. She planned to attend BYU and study geology. Becky's other interests include riding her unicycle, traveling and sleeping.

Message from parents: "Becky, you have a tremendous amount of energy and enthusiasm, which makes you a fun soccer player to watch, and a great person to have in our family or as a friend. You have a fun, quirky sense of humor. You are very loyal and will often go out of your way, or do crazy things, just to help a friend. She loves playing with this fabulous team!"
