

### #14 – Cate Christensen

Cate has loved playing for the Skyline Lady Eagles over the last four years.

Some of her closest friendships have developed out of being a part of this program. An important memory for Cate is the year she played with her older sister, Megan. Cate has many wonderful memories of the girls, the coaches, and she feels fortunate to have participated in great competition including the state final and semifinal games. This year she feels honored to be the senior captain and play with this select team.

Cate has excelled in many sports, including basketball, waterskiing and volleyball, but soccer has always been her passion. Cate has played for both Joga and the Impact club teams and feels fortunate to have played with girls her own age, as well as a great group of older girls.

Cate plans to pursue a career in education. She loves hiking in the mountains, boating, spending time with family at the beach and traveling to different parts of the world.

Cate has also developed an interest in photography and art. She is a hard worker and quietly pushes herself and leads by example rather than words. Cate loves the friends she has made on the team and values the time they spend together. Thanks to all for the support and making this a wonderful year.
