

Rosalie Triolo

Rose was not born with shin guards strapped to her legs and spikes stuck to the soles of her feet. She spent 7 of her graceful early years dancing with the Children's Dance Theater and an equal period of time practicing to realize her childhood dream of competing as a gymnast for the University of Utah.

Rose has always liked to move fast. She joined Alta's downhill ski team at the age of 10 and slalomed her way to several top-5 finishes. In her final track meet - the Granite School District's 9th grade track finals - she won the 100-meter sprint, placed 2nd in the 200 and 3rd in the long jump and took 7th in the Hershey Games state finals.

She started playing soccer when she was 12 and used her speed, athletic ability, competitive nature and a good feel for the game to quickly advance from Recreational League play to D1 Firebird teams. She also plays for Impact United's P2 team.

Off the field, Rosalie excels academically and is a talented violin and fiddle player. She won the Utah State Novice Bluegrass Fiddle contest and has placed 2nd and 3rd in Open division. She has also earned "superior" ratings the last four years for her solo violin performances in Utah Federation of Music Clubs competitions.

In her spare time, Rose enjoys kayaking and rafting with friends and family. She shares her passion for the outdoors by volunteering for SPLORE, an organization that offers outdoor trips to persons with cognitive and physical changes.

We are immensely proud of Rosalie and the confident determination that has kept her on top of whatever game she has chosen to play, and have enjoyed watching her grow from a chatty, precocious kid to an outgoing, spirited young lady with a promising future. Rose has enjoyed the team spirit and camaraderie of the Skyline soccer team and we join her in thanking her coaches and teammates for their support and friendship, and teammate parents for their nut-free snacks and meals.

Kelsie Pos

Kelsie started playing soccer when she was 5 years old. She loved practicing at home with her 90-pound Rottweiler (dog), *Cubbie*. They played keep away for hours in the back yard. She brought those skills out during her AYSO games and rarely found a player as fast as *Cubbie*.

Since that time, her love of the game grew and she has played with Sparta and the Impact Black team. Soccer has been a huge part of Kelsie's life experience and has given her opportunities to play teams from all over North America. Some of those great experiences include winning the Rocky Mountain Cup and College Showcase and being a finalist at the San Diego Surf Cup. Playing for Skyline has been a great experience for her and remains one of her favorite school activities.

In addition to her passion for soccer, Kelsie has a strong desire for pursuing a career in the medical field. Last year, she qualified during the Utah State HOSA (a national organization for future health care professionals) competition to attend and compete at the national conference in Nashville, Tenn., and is currently the president of the Granite Technical Institute Chapter. Kelsie is working toward obtaining her Emergency Medical Technician Certificate; no doubt due to her strong desire to attend to injuries of her teammates on the field since a very young age.

This year, Kelsie earned one of the two internships offered to students at the Intermountain Medical Center in Murray, where she hopes to narrow her focus in the health-care field. Kelsie is a member of the National Honor Society and is an ambassador for the Granite Technical Institute. She is looking forward to attending the University of next year.

Kelsie has a love for animals in need. When she has spare time, she volunteers with the Utah Animal Advocacy Foundation helping with adoptions for homeless dogs and cats. She enjoys spending time with her friends, family and her dogs, of course. She also has a love for the mountains, hiking and mountain biking in the summer and skiing in the winter.
